

Electric Power for Municipal Utilities

What does the future hold?

Thursday May 7 from 6 - 8 p.m.
El Paso County Extension Office
17 N. Spruce St. in Colorado Springs

The landscape of electrical power generation is changing more dramatically today than in the last 130 years, and the impact on municipal utilities is significant. Colorado State University Extension and the Southeast Colorado Renewable Energy Society (SECRES) will be co-hosting a panel discussion entitled "Municipal Electric Utilities: What Does the Future Hold?" to identify the opportunities and challenges for municipal utilities in clean and renewable energy

Introduction: Jan Martin, two term Colorado Springs City Councilwoman
Moderator: Cary Weiner, Colorado State University Extension
Panelists:

Jim Riggins
Colorado Renewable Energy Society
Vince Guthrie
Fort Carson
John Romero
Colorado Springs Utilities
Dan Hodges
Colorado Association of
Municipal Utilities
Norm Weaver
Fort Collins Utilities

Hors d'oeuvres and non-alcoholic drinks will be served. **Registration by Monday, May 4 is required** in order to attend and \$5 suggested donations will be accepted at the door.
